Trade Show Guide Advertising

*Print advertising should be sent to: marketing@appro.org

The official APPrO 2005 Conference & Trade Show Guide will appear as a special 24 page supplement in the October/November edition of *IPPSO FACTO*, the official magazine of APPrO.

Reservation deadline – October 7
Material deadline – October 15

Please note that due to time and production constraints, this deadline will not be extended.

Advertisement Sizes (width x height)

Full page – trim 8.5" x 11" Bleed: 8.75"x11.25" (0.125" all four sides) Live area: 7-3/4 x 10
Half page - horizontal 7¾" x 5"
Quarter page - vertical 3¾" x 5"

Platform: APPrO uses PC computers only. We cannot read files in Mac format. Our printer can, but it makes extra work. If you must submit your ad in Mac format, please remember to include a graphic header with the file, since PC computers cannot produce a screen image from the file directly.

Colour: The entire Trade Show Guide is 4-colour (CMYK). If possible, please make sure any colour ads are in 4-colour form (CMYK). We are able to convert from RGB but we cannot accept responsibility for color variation.

Ads with graphics preferred formats are EPS, JPEG, GIF and TIF. PDF is also acceptable.

Ads submitted in Word or WP: We cannot reliably extract the graphics from Word or WP files containing graphics. We need all graphic elements in their original "native" format (jpeg, gif, tif, etc.) as separate files, along with the Word or WP file. Ads consisting of text only may be submitted in Word or Word Perfect, or simpler formats like RTF.

Fonts Vector art or word-processing files requiring specialized fonts must have the fonts submitted (or embedded) with the ad. In the case of EPS files, if outputting material with text as text, you **MUST** include any unusual fonts when you send us the file. Alternatively, you can export the text as curves, which make for a larger file but eliminate the need to include the fonts.

Other formats APPrO uses PageMaker and InDesign for page layout. We cannot reliably read material in other native formats like Publisher, Quark, or Adobe Illustrator. We can read files submitted in CorelDraw (up to version 8) and Photoshop (up to 6.0). Printers may be able to read

the other formats, but it makes for extra work. Thank you for submitting your material in one of the formats above.
