APPRO update for members

The industry's monthly bulletin featuring updates, briefings, links and resources from the Association of Power Producers of Ontario.

Noteworthy News:

Minister instructs IESO to proceed with Resource Adequacy initiatives

On November 10, the Ontario Minister of Energy Todd Smith sent a letter instructing the IESO to take steps to finalize the design of its Medium Term RFP and to initiate stakeholder engagement on the design and timelines for its Long Term RFP. The letter paid particular attention to clarifying the approach for re-contracting with existing Biomass and Small Hydro generation facilities.

Draft Medium-Term RFP posted for review

On November 2, the IESO posted its draft Medium-Term Request for Proposals (RFP) for stakeholder input. The RFP is intended to competitively procure up to 750 MW of unforced capacity (UCAP) from existing electricity generation or storage resources for a three-year commitment period starting May 1, 2026 with an optional two-year extension. A draft capacity contract will also be posted soon, with all input due back to the IESO by December 10, 2021.

The Ontario Chamber of Commerce believes Ontario can lead in climate solutions

Ontario has certain competitive advantages it can use to confront the climate change crisis while securing significant economic and environmental benefits for the world, according to the Ontario Chamber of Commerce. Its recent report, “The Climate Catalyst: Ontario’s Leadership in the Green Global Economy” echoes many of the themes voiced in [Ontario’s Clean Energy Advantage](#) initiative.

UK, US unveil new clean grids alliance

UK Prime Minister Boris Johnson, Indian Prime Minister Narendra Modi and US President Joe Biden are among the world leaders who launched the green grids initiative on November 2 at COP 26 in Glasgow, Scotland. The aim is to combine a massive increase in solar and wind power with international grids on every continent, connecting energy-rich locations such as sunny deserts and windy coastlines.
