Communication initiative

Investment surge

Assessing the Transition

VPPAs and ESG

APPRO update for members

The industry's monthly bulletin featuring updates, briefings, links and resources from the Association of Power Producers of Ontario.

Noteworthy News:

Promoting Ontario's Clean Energy Advantage

APPRO is launching a new digital communications initiative in October 2021. "Ontario's Clean Energy Advantage" will focus on Ontario's climate success story, how Ontario's grid enables Net-Zero targets to be achieved and why a secure supply of made-in-Ontario electricity is critical. Ontario has one of the cleanest electricity systems in the world, and this campaign will remind audiences that our clean and diverse electricity system is a critical tool to decarbonize other segments of Ontario's economy where CO2 emissions are heaviest, and have been rising.

Stay tuned for more later this month.

Cleantech and renewable energy investments surge

A green investment wave is washing over Canada, according to a recent financial analysis of the green economy.
