

Colin Anderson – Bio

Colin has dedicated his entire career to the energy sector. As a Professional Engineer with an MBA and over twenty-five years' experience, Colin has considerable knowledge of the power generation / utility / electricity industry. He has demonstrated understanding in all areas of the business and has achieved success in resolving executive-level strategic and tactical issues.

Most recently, Colin was the President of the Association of Major Power Consumers in Ontario (AMPCO). AMPCO is a not-for-profit consumer interest advocacy organization, whose members represent Ontario's major industries: forest products, petrochemical, mining, steel, automotive, cement, industrial air, manufacturing and business consumers in general.

Prior to that, Colin previously worked as a power plant engineer at a major generating company, a design engineer at a power generation sector OEM, a management consultant at a major consulting firm and a regulatory professional within the energy sector.
